180°

270°

Improve showering, single-handedly.

Your family will want to use all four of the Twist™ showerhead settings, so we made switching from one to another easier than ever. The new Moen® Twist handheld shower twists between settings with just a flick of your thumb. Whether you need a relaxing mist or invigorating spray for adults, or a soft rinse for children or pets, Twist has a setting just for you. There's even a strong, focused spray that's ideal for cleaning your tub or shower. And, Twist looks great, too - with unique yet transitional styling, it will suit almost any décor.

Champagne
Awakens the senses with an invigorating, full coverage spray

Misty
Covers your body in a heavy, relaxing mist of water.

Spray
A soft yet heavy rinse, perfect for bath time with kids and pets.

Rinse
A strong, focused spray ideal for cleaning your bathtub and shower.

Make Every Bath a Safe Bath™

Safety, comfort and peace-of-mind. They're engineered into all Moen® Home Care® products we make. You can feel the difference in our quality design. You can see the difference in our attention to style and detail. Trusted safety, unmatched comfort. That's our commitment to you.

There's no need to sacrifice style for safety.

Moen® Designer Grab Bars with integrated accessories combine security and convenience with style and sophistication. The multi-function design allows you to increase safety while reducing clutter in the bathroom.

Spot Resist™ Finish

Kitchen is the most used room in your home. That's why we developed the Spot Resist Stainless finish. Spot Resist does just what it says—resists fingerprints and water spots—so you'll have one less thing you need to clean every day. This attractive finish maintains the brilliance of your faucet so you can spend more time enjoying your home ... and less time cleaning it. And when it is time for periodic cleaning, Spot Resist easily wipes clean.

Three ways MotionSense™ responds to you.

1. Pass your hand over the **Wave Sensor** at the top of the faucet spout. MotionSense will turn your faucet on and run water until you turn it off. Great for filling large pots and washing dishes.
2. **The Ready Sensor** detects when you place your hands or an object below the spout and supplies water only until you exit the sensor zone. That means you'll use water more wisely when you need to wash your hands or rinse a plate.
3. Use the **handle** at any time to turn on the faucet or adjust flow and temperature.
